

SOUTHERN

LOCOMOTIVES LIMITED

34010 *Sidmouth* - sponsorship appeal

West Country class locomotive 34010 *Sidmouth* was built in 1945 and ran in service until 1965. It was bought for preservation in 1982 but little work was done until 2015, when Southern Locomotives Ltd decided to return it to steam. While the major components are in existence, everything will need repair, and many components will need to be re-made. The project will take around three years and the cost will run well into six figures.

- 112 small Boiler Tubes @ £65 each
- Bearing Metal for 6 main bearings @ £150 each
- Five Manifold Valves @ £250 each
- Bricks for the Firebox £250
- Six Valve Heads @ £300 each
- A new set of under keep pads, £350
- Six Cylinder Covers @ £400 each
- 32 large Boiler Flues @ £490 each
- All the paint, £500
- A kit of parts for a new ashpan @ £800
- Three new lubricators @ £1,100 each
- Two new Safety Valves @ £1,200 each
- A new set of running plates, £3,500
- A centre connecting rod, £5,000
- A vacuum brake ejector, £5,000

When the loco re-enters service sponsors and donors will be offered places at the renaming ceremony, etc. More details nearer the time, but rest assured that your generosity will be noted and rewarded.

Please complete this form and send it with a cheque made out to Southern Locomotives Ltd:
Southern Locomotives Ltd, 16 Arcadia Road, Istead Rise, Meopham, Kent DA13 9EH

I would like to sponsor *Sidmouth's* restoration, or make a donation:
